

Gemalto Cogent Livescan Purchase Options

Entities in Minnesota have two options to purchase equipment for background study subjects to complete the required fingerprint and photo for a Department of Human Service (DHS) background study. Entities are not required to purchase equipment and all Department of Human Services (DHS) background study subjects may use any DHS-authorized fingerprint and photo service location.

Option 1. Purchase Equipment for Your Entity's Use Only

Entities may purchase a Minnesota certified Gemalto Cogent LiveScan system to complete the fingerprint and photo background study requirement for background study requests initiated by your entity only.

Transaction Fee: The fee to be fingerprinted and photographed is \$9.10 regardless of your agency's decision to purchase equipment. This fee may be paid by the agency or background study subject.

Option 2. Purchase Equipment and Become a Public Fingerprint and Photo Location

Entities may purchase a Minnesota certified Gemalto Cogent LiveScan system to complete the fingerprint and photo background study requirement for background study requests initiated by your entity or other entities that initiate background studies.

Your entity must have hours of availability and facilities that accommodate the general public. Your address and availability information will be posted on the Gemalto Cogent and DHS web sites.

Transaction Fee: The fee to be fingerprinted and photographed is \$9.10 regardless of your agency's decision to purchase equipment. This fee may be paid by the agency or background study subject. However, as a public fingerprint and photo location, Gemalto Cogent will pay your entity \$3.25 per transaction.

Gemalto Cogent Equipment Costs
